

## CLIP-ON STEAMER

ART. NO. 550009

### GENERAL

 The KEOFITT CLIP-ON STEAMER is a steam source that offers the ability to steam your KEOFITT sampling valve where steam is otherwise unavailable. All you need is water and a torch.

 To be used with all steam sterilizable sampling valves.

 Torch is NOT included!

 CAUTION! Open flame, it is recommended to use gloves during the sterilising process as both CLIP-ON STEAMER, fittings and sampling valve become hot during the process

### TECHNICAL DATA

#### Material (without product contact)

- Steel parts                      Stainless steel
- O-ring                              Silicone

#### Capacity

- Capacity                            50 ml

#### Net Weight

- Kg/lbs                                0,500 kg

#### Spareparts

- 800830                                10 PACK O-RING 10,3 x 2,4 SILICONE FDA
